TO: Minerals File

FROM: Lynn Kunzler, Reclamation Specialist *LK*

RE: Site Inspection, Kell's Mine, S/049/017, Utah County, Utah

Date of Inspection: September 30, 1994
Time of Inspection: 12:00 noon
Conditions: clear and cool
Participants: Lynn Kunzler, DOGM

Purpose of Inspection: Inspect reclamation for final release.

The NE quarter of Section 26 of Township 10 South and Range 6 East was searched for evidence of the Kell's Mine Project on the referenced date. A couple sites in this area have been disturbed in the past and had been recently reclaimed. However, I could not be certain that either site was the Kell's mine. A joint inspection with the operator is needed to confirm the location. An attempt was made to contact Mr. Light at 410 East 1600 North, Mapleton Utah at the conclusion of this inspection (no one was home). Attempts to contact Mr. Light by phone have been unsuccessful thus far. Pending confirmation from Mr. Light, this file could be closed.
